Course Description:

This class is the first of a two-year course. It is the study of the language, concepts, and techniques of Algebra designed to set the foundation for future High School Mathematics courses. This course focuses on expressions, linear equations and inequalities, proportions, graphing, probability, and basic statistics.

Materials Needed:

Textbook: Glencoe Algebra 1

Other Materials: Notebook, pencil or pen, and folder to stay organized

Academic and Behavior expectations:

The class period is 45 minutes long. During this time students are expected to take notes during lecture and participate during any daily classroom activities. If a deadline is not given on an assignment it will be expected to be due the next class period. There will be one project per quarter to go along with any tests or quizzes. Students will be expected to perform and behave in accordance with the Wahoo Student Performance Goals:

- Be on time and prepared for learning
- Complete assigned task on time
- Strive for academic success
- Use work time productively
- Respect people and property
- Respond appropriately to staff directives

Grading:

All grading will be done on a total points basis. Homework is usually worth 5 points. Quizzes are usually worth 30 points. Tests are usually worth 100 points. Project point totals will vary. All assignments can be redone for full credit on the student's own time. Class time will not be given for work the needs to be redone.
