Please see other side for "Clothing Reminders".

Clothing Reminders:

When buying school clothing, please keep in mind the school's dress code.

Students are expected to dress appropriately and in such attire that does not interfere with the orderly operation of the school. It is impossible to make a list of all possible attire choices, which may cause a distraction, but the following guidelines should be considered when making those choices:

1. Students should not wear clothing that is too revealing of undergarments, private body parts or midriff.
2. Students should not wear clothing that advertises something that is illegal for minors or sexual in nature.
3. Students should not wear hats or head coverings in the building.
4. Students should not wear clothing that resembles sleepwear, specifically pajamas and slippers.
5. Students should not wear clothing that is excessively torn.
6. Wheel shoes are not allowed.

The staff and building principal will judge the appropriateness of a student's attire. If determined to be inappropriate the student will be asked to make the necessary changes and the student's parent/guardian will be notified. Repeated offenses will lead to more severe consequences.
