New students must register a schedule as soon as possible, preferably by August 1st in order to be able to file a schedule for next year's classes. To file a schedule, this registration form must be returned by the deadline. New students will need to refer to the Master Schedule in order to determine courses that are available. Some classes may be full. The parent/guardian needs to review, sign and return this form as soon as possible -- returning the signed form is "filing" the schedule for the following school-year.
